WHAT'S INCLUDED (in the box)

- 1 Link Hub (used to connect GE Link bulbs)

REQUIRED FOR USE (not in the box)

- Wi-Fi®
- Wink app
- Mobile device with Internet access

WINK APP READY

This product can connect select Wink App Compatible ZigBee® products, like your GE Link light bulbs, to the Wink app. For more information, visit **winkapp.com**

GETTING STARTED

- 1 Plug your Link Hub into an AC outlet in a central location.

Note: The LED light on the hub will turn on as it downloads the latest firmware. Do not unplug during this process.

- 2 Download and launch the Wink app on your mobile device.
- 3 Sign in or create an account on the Wink app. Select "Add Device" then select Link Hub.
- 4 Once Link Hub setup is complete, you can use the Wink app to add GE Link light bulbs and other select Wink App Compatible ZigBee products (sold separately) to your network. Just follow instructions on the Wink app to connect and control them from your smartphone.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Radiation Exposure Statement: This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Note: The country code selection is for non-US model only and is not available for all US models. Per FCC regulation, all Wi-Fi products marketed in the US must be fixed to US operation channels only.
